ENGINEERED QUARTZ DECORS PRESENTATION

AVANT QUARTZ TODAY:

- The largest assortment available in stock
- An array of 48 popular marble and granite decors
- Convenient for edge processing and grinding
- Two optimal sizes: standard and jumbo, both allowing you to optimize manufacturing costs
- More than 10,000 customers in Europe have made their choice in favor of AVANT QUARTZ

MODERN ECO-FRIENDLY MATERIAL

The primary modern design trend consists in the transition from artificiality to natural forms.

The use of durable and practical engineered quartz materials is a great way to show your refined taste and bring a “luxury feel” to your residential area.

ECO-FRIENDLY

MAN-MADE BEAUTY MAN-MADE BEAUTY ONE OF INTERIOR STONE ONE OF INTERIOR

Premium Natural Quartz is engineered quartz created with the involvement of modern technology, combining the best of nature and human craftsmanship.

This eco-friendly material consists of:

- natural quartz chips (95%)
- polymer resins (4%)
- color pigments (1%)

The collections are designed in the fashion of marble and granite. The artists managed to create a unique, realistic decors based on the natural structure of stone, its specific veins and streaks.

Each AVANT QUARTZ product is original and unique due to a variety of patterns as well as a wide range of colors and shades.

FRENCH REFINEMENT FOR ADEPTS OF AESTHETICS

The ultimate source for drawing inspiration when creating the Avant Quartz collection became a trip to spectacular places in France. During our designers' work with the engineered quartz decor, they tried to convey the unique atmosphere of local architecture and the craftsmanship of French artists to make the most ordinary things look sophisticated.

That is why, engineered quartz is a great choice for classic household furnishing and modern interiors. It invariably becomes the touch that emphasizes the excellent taste of the house owner.

Being in no way inferior to natural stone, AVANT QUARTZ has yet another advantage: it offers you the best value for your money. Furthermore, the peculiarities of engineered quartz make each item unique, and the quality of the material itself meets the highest global standards

ADVANTAGES A MATERIAL OF THE

Having combined stylish design and ease of use, AVANT QUARTZ has many advantages.

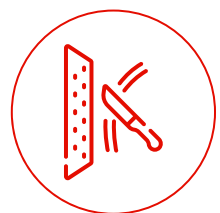

They include - high scratch and stain resistance.

The smoothness of the material ensures ease of care and hygiene: the absence of cavities prevents the accumulation and development of bacteria.

In the event of contamination, it is sufficient to wash the surface and the pattern will look as good as new. With proper care, an item made of quartz will last for decades.

Durability

Scratch resistance

Size matters

Stone processing for different design elements requires different approaches. AVANT QUARTZ products are available of standard size - 3050 x 1440 mm and Jumbo size - 3200 x 1600 mm. The slab thickness is 12 mm, 20 mm and 30 mm (on request).

Diverse application

The material is widely used for decoration of bathrooms, kitchens, bar counters, washbasins and it also can be used as a floor covering.

Certification and safety

Engineered quartz by AVANT QUARTZ is certified for the manufacture of countertops and interior cladding. The material is safe for use in the kitchen and premises with high hygiene and sanitary requirements.
